IMARA H/T HIGHWAY TERRAIN

The **Imara H/T** - a **highway terrain** tire designed for **confidence, comfort, and control**. The tread pattern suppresses road noise, offering a quieter ride. For year-round dependability, multi-angle tread blocks ensure a smooth ride. Wet weather is no obstacle for the Imara H/T. **Grooves evacuate water** to maintain traction and reduce hydroplaning risk.

Offered in 47 sizes and replacing the Lionclaw HT, it comes with a **50,000-mile treadwear warranty** and road hazard coverage. The Imara H/T expertly balances durability, traction, and heat resistance—making it a go-to solution for dependable, high-mileage highway performance.

FEATURES AND BENEFITS

Engineered Silence with Multi-Form Steel Belt Technology

Silence meets strength. A carefully crafted blend of smooth, stepped, and edged tread patterns reduces road noise, delivering a calm, comfortable ride. Meanwhile, the innovative multi-angle steel belt design adds extra biting edges, unlocking sharper braking response and agile, high-performance handling.

Multi-Angle Tread Block Precision

Braking that responds with authority. The advanced multi-angle tread block design minimizes distortion under pressure, distributing braking forces evenly for smooth, controlled stops. Paired with continuous transverse grooves and wide channels, it ensures rapid water dispersion and reliable performance—even in the harshest wet conditions.

Rain-Ready Grip with Wide Longitudinal Grooves

Conquer wet roads with ease. Four bold, wide grooves work overtime to rapidly evacuate water from beneath the tire, maximizing contact and grip. Whether you're navigating a sudden downpour or slick city streets, you'll enjoy enhanced traction and safer, more confident driving.
