## KILIMA A/T ALL-TERRAIN

The **Kilima A/T** - an all-terrain tire built to **command every road and trail**. Designed with **straight sidewall construction**, it delivers a flatter tread profile for firmer road grip, and guards against road hazards. **Reinforced shoulders** deliver extra cornering grip when it matters most.

Drivers experience sharper acceleration, consistent responsiveness, and rock-solid control through every curve. With a **50,000-mile treadwear warranty** and road hazard coverage, this tire replaces the Lionclaw ATx2. It's a tough tire made for drivers who don't back down from a challenge.

## FEATURES AND BENEFITS

### Steel-Belted for Peak Performance

Underneath, a multi-steel belt design means one thing: next-level traction. Rain or shine, dry or drenched, you'll feel the difference in grip, acceleration, and responsiveness. It's performance you can feel in every turn.

### Command the Road with Straight Sidewall Strength

Take traction to the next level. Our straight sidewall construction delivers a flatter tread profile for stronger road grip, while rugged sidewall reinforcement shields against unexpected bumps, scrapes, and hazards. Confidence? Built right in.

### Aggressive Tread Blocks, Unstoppable Control

Massive central and shoulder tread blocks deliver serious grip and razor-sharp handling. Designed for strength and stability, they maximize contact with the road for superior control on pavement—while standing strong against stone cuts and off-road abuse. Wherever you drive, these blocks mean business.

### Reinforced Shoulders. Maximum Edge

Crush corners with confidence. Reinforced shoulders defend your sidewalls from damage while delivering extra bite when and where it counts. More traction. More toughness. More control.
